its basically buying the game but its all good.. get this with a discount,it's a great price for all current and future ships in the game!. If you tired of collecting money in game for buying some ship, this dlc might help you.. also buy when this dlc is -50% off. it's great!. I like starships. I like video games where you control starships. I didn't get this on sale but I got it in general. I am very happy with it. I enjoy this game. If you look all of the things I mentioned above or play this game on the regular like I am doing a lot more now this is worth it.

10V10 would buy again.
